Chalet

Warm and inviting with a handwoven feel

Chalet is an alpine inspired collection featuring a range of textural and cosy fabrics in warm and inviting colour palettes.

Inspired by winters in The Alps, capturing the warmth of log cabins with their crackling fires, overlooking a panoramic view of snow-covered peaks, Chalet Collection is the perfect blend of timeless designs and statement prints. The collection's palette and textures are influenced by the earthy tones of alpine landscapes and the tactile charm of the natural materials found there, bringing a sense of rustic elegance along with a connection to the natural world.

Printed Ikat designs on slubby linen look grounds, coloured in bold hues, are layered with kilim velvet prints, soft brushed checks and chunky rustic stripes with a handwoven appearance. The collection provides the perfect inspiration for creating a warm and rustic interior as well as a sleek and timeless living space.

Chalet Shell

Chalet Citrine

Chamonix Citrine

“Chamonix, a floral trail design printed onto 100% sustainable BCI cotton.”

Chalet Arctic & Mineral

Chalet Mineral

Chalet Glacier

“Chalet, our lead print in this collection is a stunning kilim design, digitally printed onto a velvet base cloth.”

Plains & Textures 14

Versatile and stylish woven semi plains

An expansion of our much-loved plains ranges, Plains & Textures 14 is our latest collection of versatile woven semi-plains and small-scale designs, available in an extensive array of trend-led hues.

This stylish collection includes nine effortless designs and intricate semi plains, from textural chenille stripes to interlocking diamond patterns and structured prism effects, all woven in harmonious colour combinations and expertly matched to our brand-new Chalet Collection.

Combining design and quality, Plains & Textures 14 is suitable for both drapery and upholstery, making it the epitome of style and practicality.
