ARBORETUM

CELEBRATING THE WONDER OF ENGLAND'S COUNTRYSIDE,
ANCIENT WOODLANDS AND PROTECTED WILDLIFE.

An evocative interpretation of majestic trees, secluded glades and indigenous wildlife, Sanderson Arboretum fuses contemporary elements with archival influences to recapture the glory of this much-loved country aesthetic.

New for SS23, statement creations combine with a selection of bestselling designs in a launch that beautifully reflects the wonder of woodland life.

Highlighting the decline of their natural habitat, frogs, woodpeckers and goldfinches find their home amongst intricate paintings of nodding bluebells, springtime primrose, wild dogrose, and age old sycamore and oak trees. A recipe for positivity and the opportunity to reconnect with nature, this collection reminds us of the restorative powers the countryside provides.

Rebecca Craig, lead designer at Sanderson explains, "Arboretum is the Latin name for 'a place with trees', which not only provides a beautiful landscape, but also a focus for research and preservation. From the relaxing benefits of forest bathing to spiritual and symbolic associations, Arboretum raises the awareness of these special habitats, and the endangered species that live there."

Amongst a stunning array of designs, Forest of Dean's magical hand guided crewelwork scene, Truffle's archival blend of texture and tone, and Ancient Canopy's stunning impressionist vista of age old woodland and secluded glades introduce an impressive choice of statement pattern.

Sycamore and Oak's striking 3m wallpaper panel is a hand painted celebration of the English countryside, translated into a fresh botanical panorama of gorgeous, layered trees, intricate flowers and delicate wildlife. Launching alongside Arboretum is Pinetum Prints, a book of six smaller scale fabrics that can be used in combination with statement pieces to create a harmonious look.

Most fabrics have been produced using our new digital pigment inks, which thanks to their low water consumption and energy usage, are considered one of the most sustainable and environmentally friendly ink options available. Additionally, Better Cotton Initiative (BCI) cotton has been used throughout the collection and our materials are all responsibly sourced and ethically produced. Alongside Arboretum's fabrics, all wallpapers are printed in the UK on FSC certified substrates, from sustainable, traceable sources.

The collection comprises three books:
Arboretum Fabrics and Embroideries, Arboretum Wallpapers and Pinetum Coordinates

RUBUS *with* ROBIN'S WOOD

Beautifully hand painted in the Sanderson studio, these plump berries look good enough to eat. Sharing the family name for raspberries and blackberries, this pretty, woodland inspired wallpaper brings the outdoors in. A coordinating fabric is available.

Robin's Wood is an area of diverse flora, fauna and ancient woodland thought to date back to after the last ice age. Inspired by an archive document, oak and sycamore leaves display a chalky, handmade appearance in this multicoloured wallpaper which captures the beauty of surface printing. A choice of three colourways allude to the changing seasons.

Exquisite depictions of British birds make their home on the delicate branches in this all-over patterned wallpaper. Reproduced in two new contemporary colourways, Woodland Chorus is one of our bestselling designs. Inspired by an 18th century painting of plants and animal, gravure printing shows the motif's fine detail and exceptional colour. Also available in a range of fresh pastel shades and as a coordinating fabric.

ARIL'S GARDEN *with* TRUFFLE

Named after a pomegranate's delicious jewel coloured treasures, our trailing Aril's Garden design features stylised flowers, a friendly grasshopper, beetles and a crested tit.

Like the cross section of a truffle, this archive design is made from lines of pin dots on a spotted ground. A lovely mix of texture and tone, Truffle is an ideal coordinate to the entire Sanderson range.

FORAGING EMBROIDERY *with* SESSILE LEAF

Intricately embroidered wild berries, sloes and blossom trail across this woodland inspired design. Fine viscose thread adds a dew like shimmer to a forager's harvest, stitched on a blend of cotton/linen.

The unusually named sessile leaf is where a leaf blade connects directly to a plant's stem, as shown in this oak leaf motif. With a screen printed appearance and hand crafted look, stylised leaves are placed to create a contemporary stripe effect on an archive inspired spotted ground.

With a modern twist, this warm, welcoming blend of autumnal shades reaches from russet and plum through to deep indigo blues.

ENY'S GARDEN *with* FORAGING

This finely detailed trail of stylised flowers is faithfully reinterpreted from an archive document. Meaning 'forest clearing' in Celtic, it's named after the gardens at Enys, one of the earliest and most progressive in Cornwall. A pretty, well-spaced design, see if you can spot our charming grasshopper in his countryside home.
